Business Research

Editor-in-Chief: Th. Gehrig

- ▶ **Bridges the borders of subfields in business research by covering both traditional fields of business administration and cross-functional, multidisciplinary research that reflects the complex character of business problems**
- ▶ **Official journal of the German Academic Association of Business Research**
- ▶ **Open access publication assures maximum dissemination and allows for a higher number of citations**

Please note, we are currently updating the 2018 Journal Metrics.

Business Research publishes high-quality articles covering both traditional fields of business administration and cross-functional, multidisciplinary research that reflects the complex character of business problems. Of particular interest are articles devoted to developing novel perspectives or exploring new domains of research. The journal is not tied to any particular subfield, type of analysis, or national context. It guarantees a review of a maximum of ten weeks with a definite decision after a maximum of 2 rounds. Accepted papers will immediately appear online before integrated into issues. *Business Research* highly welcomes detailed appendices with data sets, program codes, spreadsheets, videos and other complementary material that allow for better understanding and replicating research.

The publication costs are covered by German Academic Association of Business Research so authors do not need to pay an article-processing charge.

The journal operates a double-blind peer-review system, where the reviewers do not know the names or affiliations of the authors and the reviewer reports provided to the authors are anonymous.

All articles published are made freely and permanently accessible online immediately upon publication, without subscription charges or registration barriers. Further information about open access can be found at <https://www.springeropen.com/about/open-access>.

Giving authors in their area of expertise the opportunity to publish open access

- ▶ High visibility thanks to unrestricted online access
- ▶ Rigorous peer-review and high-quality author services
- ▶ Creative Commons licensed – authors retain copyright
- ▶ Citation tracking and inclusion in bibliographic databases
- ▶ Easy compliance with open access mandates
